PATENT  
Docket: CU-4233

**Amendments To The Specification**

Please replace the paragraph in the specification page 45, lines 9-16 with the following amended paragraph:

When at least one downlink transmit antenna is provided in FIG. 20, the synchronizer 2000 of ~~FIG. 10~~ FIG. 20 can further comprise an antenna power comparator 2050, and the fine symbol synchronization estimator 2014b and the cell searcher 2020 can further comprise antenna signal select combiners 2014c and 2021, respectively. The antenna power comparator 2050 estimates and compares pilot powers of the transmit antennas, and the antenna signal select combiners 2014c and 2021 select, combine, and use the results processed per antenna.
